UPPER HUNTER COMMUNITY SERVICES Inc

Glencore

Our Mangoola team in #Australia has installed specially designed bug 'hotels' created by our talented community partners Denman Men's Shed.

Local projects such as this ensures the ecosystem is thriving with over 70 woodland birds and 90 native plants now identified.

Denman's Men Shed has just supplied 10 of these ' Bee and Bug Motels ' to Mangoola Glencore mine to place on site.

Life -Saving apparatus Now at the Information Centre

This week, Mick Lacey and Glenda Duggan, management committee members of the Denman and District Development Association accepted a defibrillator, which was generously donated by Malabar Coal.

Donna McLaughlin Environment and Community Manager, of Malabar Coal delivered the defibrillator to our centre.

The D&DDA appreciate this donation very much.

Defibrillators are used to restore the heart to its normal rhythm and is a great asset to the information centre.

L to R: Glenda Duggan, Donna McLaughlin, and Mick Lacey with the defibrillator.
